

## Does your dental practice need a new computer?

Don't invest in one without first looking at the affordable and reliable SystemsGo Dental Clinical Workstation.

SystemsGo, the providers of technology solutions to dental practices, introduces the SystemsGo **Dental Clinical Workstation (DCW)**.

The SystemsGo **DCW** is a PC-based client workstation that delivers the flexibility, performance, and power of the Windows operating system, while reducing maintenance costs and ensuring reliability.

# TECHNOLOGY SOLUTIONS FOR DENTAL PRACTICES

### Optimizes Performance

The SystemsGo **DCW** is a Windows XP-based computer that runs clinical and business applications either locally or from servers on your network.

The SystemsGo **DCW** connects to any back-end system, providing the flexibility to add and support peripherals and other add ons.

### Supports Clinical Care

The SystemsGo **DCW** is designed for your dental practice. With its lightweight and super-mini size – smaller than your office telephone – the SystemsGo **DCW** can easily be moved from operator to operator. The SystemsGo **DCW** saves you over 40% of space, compared to a traditional desktop PC.

*The Systems Go DCW is smaller than your office telephone!*

For even more space saving, the SystemsGo **DCW** can be installed in any clinical environment, vertically or horizontally. Optional mounting brackets are available for out-of-the-way mounting such as on a wall, under a desk, on the back of a monitor.

### Provides Affordable Solutions

The SystemsGo **DCW** gives dental practices the ability to deploy fully functional desktop computers at a significantly lower total cost of ownership than purchasing personal computers. The SystemsGo **DCW** costs as little as one cup of coffee per day!

Prices include a 5-year guarantee, next day replacement guarantee, updates and accessory installation. No upfront investment is required. SystemsGo offers a 30-day money back guarantee.

## Gain the ZystemsGo Advantage!

More than 100 dentists rely on ZystemsGo's technological expertise. Don't learn the hard way. Gain the ZystemsGo Advantage!

# MOVE TO THE FOREFRONT OF TECHNOLOGY

### Easy Set-Up

After receiving the ZystemsGo DCW, simply unpack it and plug into the cable jack. Then, plug in the monitor, mouse, and keyboard. The ZystemsGo DCW is ready to use. There's no need to worry about software not working or loading additional software, as ZystemsGo has preconfigured and pretested your DCW.

### Greater Reliability

With the ZystemsGo DCW, you'll experience fewer – if no – computer breakdowns. Since the ZystemsGo DCW does not have any moving parts, there are fewer worries about hardware failures.

### Zero Maintenance

If you have any problems, just call ZystemsGo. We are available 24/7. We'll fix your ZystemsGo DCW right away – guaranteed – by working remotely to solve your problem.

### Limited Downtime

We have your configurations and software profiles in our system. If you need a replacement DCW, we'll configure a new workstation and send it overnight to you – guaranteed. Simply plug it in and start working again immediately.
